Concise History Of The Baltic States Cambridge Concise Histories:

A Concise History of the Baltic States Andrejs Plakans, 2011-02-24 The Baltic region is frequently neglected in broader histories of Europe and its international significance can be obscured by separate treatments of the various Baltic states With this wide ranging survey Andrejs Plakans presents an integrated history of three Baltic peoples Estonians Latvians and Lithuanians and draws out the common threads to show how it has been shaped by their location in a strategically desirable corner of Europe Subordinated in turn by Baltic German landholders the Polish nobility and gentry and then by Russian and Soviet administrators the three nations have nevertheless kept their distinctive identities significantly retaining three separate languages in an ethnically diverse region The book traces the countries evolution from their ninth century tribal beginnings to their present status as three thriving and separate nation states focusing particularly on the region s complex twentieth century history which culminated in the eventual re establishment of national sovereignty after 1991 *The Shadow in the East* Aliide Naylor, 2020-01-23 An insightful nuanced account that highlights the present multitude of currents at play in Europe Peter Pomerantsev The Baltics are vital democracies in North Eastern Europe but with a belligerent Vladimir Putin to their east plotting his war on Ukraine and expansionist NATO to their west these NATO members have increasingly been the subject of unsettling headlines in both Western and Russian media But beyond the headlines what is daily existence like in the Baltics and what does the security of these frontline nations mean for the world Based on her extensive research and work as a journalist Aliide Naylor takes us inside the geopolitics of the region Travelling to the heart of Estonia Latvia and Lithuania she explores modernity in the region investigates smuggling and troop movements in the borderlands and explains the countries unique cultural identities Naylor tells us why the Baltics have been vital to the political struggle between East and West and how they play a critical role in understanding the long running tensions between Russia and Europe Children Born of War Sabine Lee, Heide Glaesmer, Barbara Stelzl-Marx, 2021-07-28 This volume presents research from an international interdisciplinary and intersectoral research project in which 15 doctoral researchers explored a range of issues related to the life course experiences of children born of war in 20th century conflicts Children Born of War CBOW children fathered by foreign soldiers and born to local mothers during and after armed conflicts have long been neglected in the research of the social consequences of war Based on research projects completed under the auspices of the Horizon2020 funded international and interdisciplinary research and training network CHIBOW www.chibow.org this book examines the psychological and social impact of war on these children It focusses on three separate but interrelated themes firstly it explores methodological and ethical issues related to research with war affected populations in general and children born of war in particular Secondly it presents innovative historical research focussing specifically on geopolitical areas that have hitherto been unexplored and thirdly it addresses from a psychological and psychiatric perspective the challenges faced by children born of war in post conflict communities including stigmatisation discrimination

within the significant context of identity formation when faced with contested memories of volatile post war experiences The book offers an insight into the social consequences of war for those children associated with the enemy by virtue of their direct biological link A Concise History of Finland David Kirby,2006-07-13 An up to date political social and economic history of Finland from medieval times to the present David Kirby traces the evolution of Finland s distinctive identity and of the Finnish national state from the long centuries under Swedish rule through self government within the Russian Empire to independence in the twentieth century *State-Building, Rule of Law, Good Governance and Human Rights in Post-Soviet Space* Lucia Leontiev,Punsara Amarasinghe,2022-05-09 This edited book analyses the issues of state building the rule of law and good governance and human rights in the post Soviet space after 30 years from the USSR dissolution In doing so it assesses the presence or absence and the level of influence of the Soviet legacies in the constructed political and legal systems of the post Soviet republics Assessing whether individual s interests are protected in theory and practice the book conceptualizes the legacies that the Soviet Union left in the post Soviet space after 30 years of disintegration This book will be of key interest to scholars and students of human rights governance democratization studies post Soviet and Russia studies and more widely to comparative politics political economy humanitarian studies and political history **State Responses to Minority Religions** Dr David M Kirkham,2014-01-01 The response of states to demands for free exercise of religion or belief varies greatly across the world In some places religions come as close as imaginable to autonomous existences with little interference from government In other cases religion finds itself grinding out a meagre living if at all under the jealously watchful eye of the state This book provides a legal and normative overview of the variety of responses to minority religions available to states Exploring case studies ranging from Islamic regions such as Indonesia Pakistan and the wider Middle East to Western Europe Eastern Europe China Russia Canada and the Baltics contributors include international scholars and experts in law sociology religious studies and political science This book offers invaluable perspectives on how minority religions are currently being received reviewed challenged or ignored in different parts of the world European Dictatorships 1918-1945 Stephen J.
