Computer Supported Cooperative Work Introduction To Distributed Applications:

Computer-Supported Cooperative Work Uwe M. Borghoff, Johann H. Schlichter, 2000-07-14 A detailed introduction to interdisciplinary application area of distributed systems namely the computer support of individuals trying to solve a problem in cooperation with each other but not necessarily having identical work places or working times. The book is addressed to students of distributed systems, communications, information science and socio-organizational theory as well as to users and developers of systems with group communication and cooperation as top priorities. *Proceedings of the Sixth International Conference on Computer Supported Cooperative Work in Design* Shen Weiming, Institute of Electrical and Electronics Engineers, Canadian Region, National Research Council Canada, University of Waterloo, University of Western Ontario, 2001. Computer supported cooperative work CSCW is a research area that aims at integrating the works of several people involved in a common goal inside a cooperative universe through the sharing of resources in an efficient way. This report contains the papers presented at a conference on CSCW in design. Topics covered include techniques, methods and tools for CSCW in design, social organization of the CSCW process, integration of methods, cooperation in virtual enterprises and electronic businesses. CSCW in design, interaction between the CSCW approach and knowledge reuse as found in knowledge management, intelligent agent, Internet, World Wide Web and CSCW in design and applications test beds. *Proceedings of the Second European Conference on Computer-Supported Cooperative Work* Liam Bannon, Mike Robinson, K. Schmidt, 2012-12-06

Readings in Groupware and Computer-Supported Cooperative Work Ronald M. Baecker, 1993-01-13 This comprehensive introduction to the field represents the best of the published literature on groupware and computer supported cooperative work CSCW. The papers were chosen for their breadth of coverage of the field, their clarity of expression and presentation, their excellence in terms of technical innovation or behavioral insight, their historical significance and their utility as sources for further reading. Taken as a whole, the papers and their introductions are a complete sourcebook to the field. This book will be useful for computer professionals involved in the development or purchase of groupware technology as well as for researchers and managers. It should also serve as a valuable text for university courses on CSCW, groupware and human computer interaction. *Proceedings of the Third European Conference on Computer-Supported Cooperative Work* 13-17 September 1993, Milan, Italy ECSCW '93

Giorgio De Michelis, Carla Simone, K. Schmidt, 2012-12-06 Computer Supported Cooperative Work CSCW is an interdisciplinary research area devoted to exploring the issues of designing computer based systems that enhance the abilities of cooperating workers to coordinate and integrate their activities in an efficient, effective and flexible manner. This rigorously selected volume represents both practical and theoretical approaches from many of the leading researchers in the field. As an interdisciplinary area of research, CSCW is characterized by bringing together widely disparate research traditions and perspectives into an arena of collaboration and contention. The selected papers reflect the diverse approaches and cultures of this multi-

disciplinary field This collection will be of interest to a wide audience because of the huge practical import of the issues and because of the interdisciplinary nature of the problems and the solutions proposed In particular the volume will be of interest to researchers and professionals in computing sociology cognitive science and human factors
