**Extraordinary, Ordinary People** Condoleezza Rice, 2011-10-11 This is the story of Condoleezza Rice that has never been told not that of an ultra accomplished world leader but of a little girl and a young woman trying to find her place in a sometimes hostile world of two exceptional parents and an extended family and community that made all the difference Condoleezza Rice has excelled as a diplomat political scientist and concert pianist Her achievements run the gamut from helping to oversee the collapse of communism in Europe and the decline of the Soviet Union to working to protect the country in the aftermath of 9 11 to becoming only the second woman and the first black woman ever to serve as Secretary of State But until she was 25 she never learned to swim because when she was a little girl in Birmingham Alabama Commissioner of Public Safety Bull Connor decided he'd rather shut down the city's pools than give black citizens access Throughout the 1950's Birmingham's black middle class largely succeeded in insulating their children from the most corrosive effects of racism providing multiple support systems to ensure the next generation would live better than the last But by 1963 Birmingham had become an environment where blacks were expected to keep their head down and do what they were told or face violent consequences That spring two bombs exploded in Rice's neighborhood amid a series of chilling Klu Klux Klan attacks Months later four young girls lost their lives in a particularly vicious bombing So how was Rice able to achieve what she ultimately did Her father John a minister and educator instilled a love of sports and politics Her mother a teacher developed Condoleezza's passion for piano and exposed her to the fine arts From both Rice learned the value of faith in the face of hardship and the importance of giving back to the community Her parents fierce unwillingness to

set limits propelled her to the venerable halls of Stanford University where she quickly rose through the ranks to become the university's second in command. An expert in Soviet and Eastern European Affairs, she played a leading role in U.S. policy as the Iron Curtain fell and the Soviet Union disintegrated. Less than a decade later, at the apex of the hotly contested 2000 presidential election, she received the exciting news just shortly before her father's death that she would go on to the White House as the first female National Security Advisor. As comfortable describing lighthearted family moments as she is recalling the poignancy of her mother's cancer battle and the heady challenge of going toe to toe with Soviet leaders, Rice holds nothing back in this remarkably candid telling. *Witness to Belief* Russell J. Levenson, 2025-10-07

From a beloved faith leader, a collection of powerful conversations on faith and meaning with twelve public figures who explore the impact of faith in their lives and their success. An openhearted testament to the power of religious belief in a chaotic world. Publishers Weekly. Through interviews with twelve remarkable and renowned people of various Christian faiths, author Russell J. Levenson Jr. explores different ways people come to faith and sustain it in their daily lives. The result is a collection of fascinating, moving, and unique stories rarely shared with the public. For instance, Secretary Rice notes that she knelt down to pray every night when she worked in Washington, but often was so tired she fell asleep during prayer time. Denzel Washington asked to begin and end the interview for this book in prayer. With Levenson and Amy Grant, she shared that because of a brain injury, she now has trouble reciting scripture, so she sings it instead. Each interview delves into the private spiritual side of public figures and reveals that behind success and fame, there is often a vibrant personal faith in God that nourishes them. Jim Nantz and Brit Hume reflect on the role of their faith as they pursued careers in broadcasting. Sam Waterston and Gary Sinise share thoughts on faith as they navigated fame in the entertainment industry. James A. Baker III, Admiral William McRaven, and Ambassador Nikki Haley consider how faith helped them make tough political decisions, and Dr. Francis Collins and Jane Goodall ponder the bridge between faith and science. You will come away contemplating the role of faith in your own life and consider what truly matters at the end of the day. Condoleezza Rice : Condoleezza Rice, 2012

**No Higher Honour** Condoleezza Rice,2011-11-01 From one of the world s most admired women this is former National Security Advisor and Secretary of State Condoleezza Rice s compelling story of eight years serving at the highest levels of government A native of Birmingham Alabama who overcame the racism of the Civil Rights era to become a brilliant academic and expert on foreign affairs Rice distinguished herself as an advisor to George W Bush during the 2000 presidential campaign Once Bush was elected she served as his chief adviser on national security issues a job whose duties included harmonizing the relationship between the Secretaries of State and Defence It was a role that deepened her bond with the President and ultimately made her one of his closest confidantes With the 11 September 2001 terrorist attacks Rice found herself at the centre of the Administration s intense efforts to keep America safe Here Rice describes the events of that harrowing day and the tumultuous days after No day was ever the same Surprisingly candid in her appraisals of various Administration colleagues and the hundreds of foreign leaders with whom she dealt Rice also offers her keen insight into how history actually proceeds In No Higher Honour she delivers a master class in statecraft but always in a way that reveals her essential warmth and humility and her deep reverence for the ideals on which America was founded      **Democracy**

Condoleezza Rice,2018-07-10 From the former secretary of state and bestselling author a sweeping look at the global struggle for democracy and why America must continue to support the cause of human freedom This heartfelt and at times very moving book shows why democracy proponents are so committed to their work Both supporters and skeptics of democracy promotion will come away from this book wiser and better informed The New York Times From the end of the

Cold War and the collapse of the Soviet Union to the ongoing struggle for human rights in the Middle East Condoleezza Rice has served on the front lines of history As a child she was an eyewitness to a third awakening of freedom when her hometown of Birmingham Alabama became the epicenter of the civil rights movement for black Americans In this book Rice explains what these epochal events teach us about democracy At a time when people around the world are wondering whether democracy is in decline Rice shares insights from her experiences as a policymaker scholar and citizen in order to put democracy's challenges into perspective When the United States was founded it was the only attempt at self government in the world Today more than half of all countries qualify as democracies and in the long run that number will continue to grow Yet nothing worthwhile ever comes easily Using America's long struggle as a template Rice draws lessons for democracy around the world from Russia Poland and Ukraine to Kenya Colombia and the Middle East She finds that no transitions to democracy are the same because every country starts in a different place Pathways diverge and sometimes circle backward Time frames for success vary dramatically and countries often suffer false starts before getting it right But Rice argues that does not mean they should not try While the ideal conditions for democracy are well known in academia they never exist in the real world The question is not how to create perfect circumstances but how to move forward under difficult ones These same insights apply in overcoming the challenges faced by governments today The pursuit of democracy is a continuing struggle shared by people around the world whether they are opposing authoritarian regimes establishing new democratic institutions or reforming mature democracies to better live up to their ideals The work of securing it is never finished
