Confederate Cities Historical Studies America:

Confederate Cities Andrew L. Slap, Frank Towers, 2015-11-17 When we talk about the Civil War it is often with references to battles like Antietam Gettysburg Bull Run and perhaps most tellingly the Battle of the Wilderness which all took place in the countryside or in small towns Part of the reason this picture has persisted is that few of the historians who have studied the war have been urban historians even though cities hosted enabled and shaped southern society as much as in the North The essays in Andrew Slap and Frank Towers's collection seek to shift the focus from the agrarian economy that undergirded the South to the cities that served as its political and administrative hubs By demanding a more holistic reading of the South this collection speaks to contemporary Civil War scholars and classrooms alike not least in providing surprisingly fresh perspectives on a well studied war

Nonprofit Neighborhoods Claire Dunning, 2022-06-23 Claire Dunning's study focuses on the relationship between state power and nonprofit organizations in the postwar era and on the effects their dynamics have had on urban neighborhoods She reveals how public private partnerships positioned nonprofits as surprisingly powerful intermediaries between the state and individuals These nonprofits took the lead in combatting urban poverty and yet counterintuitively the intended devolution and decentralization of power from the state to the community level made the welfare state both larger and more impersonal and financialized Thus even as participation in antipoverty programs increased the structural forces behind urban poverty became only more entrenched
